

Notice to undergraduate student (Except 1<sup>st</sup> year undergraduate student entering April 2021) and graduate student

Announcement of rent-free Wi-Fi router in year 2021 (Additionally announcement)

Hokkaido University (HU) have announced and requested previously to all HU's student to equip internet connectable environment in order to take online classes. However, in case of any difficulties due to financial reason, HU is providing a rent-free Wi-Fi router (20GB). The purpose of providing rent free router is as temporary and emergency measure up to equipping own internet environment.

Available number of the router is extremely limited; therefore, it is strongly suggested that the student who really needs this support can only apply this emergency measure. Also, the university is taking necessary procedure for selection of applicants with deeply consideration and providing the router for the selected students only.

.
